With their confidence and their large devotion to blues music, these men already performed on many big & small stages among which the larger festivals in Europe, like Moulin Blues in Ospel, the Belgium Rhythm & Blues Festival in Peer and North Sea Jazz in Rotterdam. The reviews are laudative, and with reason: The Electrophonics is one of the finest retro-swing-jump-r&b band, sounding like that early fifties style.

The Electrophonics go forward, their old love 50's swing is the base for that, however time gave new inspiration that resulted in their EP “Restless” released at the end of 2017. So be prepared for a new sound, music full of passion with an open mindset to all that can be described as "Roots"
